

COMPARTIMENTO TOTAL	22,00 m
COMPARTIMENTO DE LINHA D'ÁGUA	2,070 m
COMPARTIMENTO ENTRE PERISCOPIAIS	22,00 m
BOCA NOLADA	7,90 m
BOCA NA LINHA D'ÁGUA	3,80 m
PORTAL A MEIA-NU	3,60 m
SALADO A MEIA-NU	2,80 m
SALADO MÁXIMO	3,38 m

This is a detailed architectural floor plan of the principal cabin (CONVES PRINCIPAL) of the ship 'MARA'. The plan is oriented with the bow of the ship at the top. The layout includes a central corridor (CORR. 1) with stairs leading up and down. To the left of the corridor are the lavatories (LAVABOS) and a large lounge area (SALA) with a fireplace (LUGAR DE FUEGO) and a staircase (ESCALERA). To the right of the corridor are the kitchen (COCINA) and a dining area (COMEDOR). The plan also shows various storage areas (ALMACEN, ALMACEN DE COMESTIBLES), a bathroom (BAÑO), and a small office or study (OFICINA). The ship's name 'MARA' is written vertically on the left side of the plan. The overall design is functional and compact, typical of a small passenger ship.
