Independent auditor's report on the financial information on Project CITinova II

To the Executive Office and the Board of Directors of **Fundo Brasileiro para a Biodiversidade - FUNBIO**

Project CITinova II

Rio de Janeiro - RJ

Opinion

We have audited the financial information on Project "Promotion of integrated metropolitan planning and investments in innovative urban technology in Brazil - CITinova II" ("Project CITinova II" or "Project"), managed by Fundo Brasileiro para a Biodiversidade - FUNBIO ("Entity"), financed with funds from the Global Environment Facility (GEF) through the United Nations Environment Programme (UNEP) for the period from January 1 to December 31, 2023, as well as the corresponding notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion, the accompanying Project' Financial Information for the period from January 1 to December 31, 2023 was prepared, in all material respects, in accordance with the contracts entered into by and between the parties, and the cash receipt and disbursement basis of accounting described in Note 2.

Basis for opinion

We conducted our audit in accordance with the Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the 'Auditors' responsibilities for the audit of the financial statements' section of our report. We are independent of the Entity and comply with the relevant ethical principles set forth in the Code of Professional Ethics for Accountants and the professional standards issued by Brazil's National Association of State Boards of Accountancy (CFC), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - Basis of preparation and presentation of the financial information and restriction on distribution or use

We draw attention to Note 2 to the financial information, which describes the accounting basis of this financial information, prepared to assist the Entity in complying with the clauses for preparing the financial reports of the aforementioned contract. As such, the financial information may not serve any other purposes. Our report is intended solely for use and information by the Entity's executive board and Project funders, and should not be distributed or used by other parties. Our opinion is not modified in respect of this matter.

Responsibilities of management and those charged with governance for the financial information

Management is responsible for preparing the financial information in accordance with the contracts entered into between the parties and with the cash receipt and disbursement basis of accounting described in Note 2, and for the internal controls as management determines is necessary to enable the preparation of the financial information that is free from material misstatement, whether due to fraud or error.

In preparing the financial information, management is responsible for assessing the Project's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Project or has no realistic alternative but to do so.

Those charged with governance of the Project are responsible for overseeing the process of preparing its financial information.

Auditor's responsibilities for the audit of the financial information

Our objectives are to obtain reasonable assurance about whether the financial information as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial information.

As part of the audit conducted in accordance with the Brazilian and International Standards on Auditing, and the specific audit requirements set out in the clauses of the financial contribution agreement of the Global Environment Facility (GEF) through the United Nations Environment Programme (UNEP), we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identified and assessed risks of material misstatements of the financial information, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Concluded on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Project's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial information or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or future conditions may cause the Project to cease to continue as a going concern.
- Evaluated the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Rio de Janeiro, May 29, 2024.

Fundo Brasileiro para Biodiversidade - FUNBIO

Financial information on Project CITinova II
 Period from January 1 to December 31, 2023
 (In thousands of reais, unless otherwise stated)

Changes in the Project CITinova II", funds in the period from January 1 to December 31, 2023 are presented below:

	Notes	Values in USD	Quotation (*)	Values in R\$
Project balance at beginning of period		-	-	-
Cash inflows	4	561	4.81	2,698
Financial investment yields, net (**)	3	23	4.81	112
Finance costs	3	(2)	4.81	(11)
Funds executed	5	(36)	4.81	(171)
Project balance at end of period		546		2,628

(*) The quote presented is the average of the donor's contributions. Values shown in dollars are approximations considering the rounding of the amount received in reais for presentation in thousands of dollars and reais.

(**) This amount refers to financial investment yield, net of income tax to be withheld upon redemption by Funbio.

See accompanying notes.

Fundo Brasileiro para Biodiversidade - FUNBIO

Notes to financial information on Project CITinova II
Period from January 1 to December 31, 2023
(In thousands of reais, unless otherwise stated)

1. Operations

Fundo Brasileiro Para a Biodiversidade (FUNBIO) is a Brazilian private not-for-profit entity that operates in partnership with the government and business sectors as well as the civil society so that strategic and financial resources are earmarked for effective biodiversity conservation initiatives. The Entity's head office is located at Rua Voluntários da Pátria, nº 286, 5th and 6th floors, Botafogo, Rio de Janeiro - RJ, with establishment in the city of Brasília, Federal District, at SHN Quadra 2, Bloco F, Executive Office Tower, suite 1323 to 1326, Asa Norte.

The main activities include financial management of projects and funds, design of financial mechanisms and studies of new sources of funds for conservation, as well as procurement and engagement of goods and services. FUNBIO is accredited as an implementing agency for GEF - Global Environment Facility and for GCF - Green Climate Fund.

The CITinova II Project - Promotion of integrated metropolitan planning and investments in innovative urban technology in Brazil - aims to reduce greenhouse gas emissions, conserve biodiversity, and achieve economic, social, and environmental benefits in Brazilian metropolitan regions through an integrated urban planning approach. The project targets the Metropolitan Region of Belém, the Metropolitan Region of Florianópolis, and the RIDE of Teresina. This is an initiative of the Ministry of Science, Technology, and Innovation (MCTI), funded by the Global Environment Facility (GEF) through UNEP in the amount of USD11,219.

2. Material accounting practices

Basis of preparation and general information

This financial information has been prepared based on the cash receipt and disbursement basis of accounting, whereby revenues are recorded upon receipt of funds (resources) and expenses are recognized when they effectively represent expenses paid in cash. This accounting practice differs from the accounting practices applicable in Brazil, which establish that transactions must be recorded to the extent that they are incurred rather than when paid.

This financial information is presented in Brazilian reais (R\$), which is the Entity's functional currency. All financial information presented in thousands of reais was rounded to the nearest thousand, unless otherwise stated.

Fundo Brasileiro para Biodiversidade - FUNBIO

Notes to financial information on Project CITinova II (Continued)

Period from January 1 to December 31, 2023

(In thousands of reais, unless otherwise stated)

2. Material accounting practices (Continued)

Basis of preparation and general information (Continued)

For the presentation of the amount in dollars equivalent to the value in reais in the financial statements and explanatory notes, the Administration considers for the contributions the foreign exchange contracts in Reais (R\$) carried out on the date of entry of the resource through the donor's contribution of the amount foreseen in the contract in dollars (USD), and for the execution of the resources, net income from financial investments, and financial expenses, the average of the exchange rates obtained relative to the contributions made by the donor. It should be noted that the values presented in dollars are approximations considering the rounding of the amount received in reais for presentation in thousands of dollars and reais.

This financial information was approved for issue by the Entity's management on May 29, 2024.

3. Funds available

From January 1 to December 31, 2023, the balance remaining in the checking account is as follows:

Description	Type	Values in USD	Quotation (*)	Values in R\$
Banco do Brasil - CDB 27402-X	Financial investments	546	4.81	2,628

(*) The quote presented is the average of the donor's contributions. Values shown in dollars are approximations considering the rounding of the amount received in reais for presentation in thousands of dollars and reais.

During the period from January 1 to December 31, 2023, the net income from financial investments totaled R\$112, equivalent to a total of USD23, and the financial expenses totaled R\$11, equivalent to a total of USD2.

The financial investments in bank deposit certificates - CDBs are represented by securities that guarantee a yield of 96% of the CDI, with a redemption period of up to 60 months and an insignificant risk of value reduction. The investments are held in a first-tier financial institution.

4. Cash inflows

The total resources contributed during the period from January 1 to December 31, 2023, were as follows:

Project	Values in USD	Quotation (*)	Values in R\$	Date of resource entry into the bank
1 st Contribution - CITinova II Project (a/c 27402-X)	561	4.81	2,698	06/28/2023

(*) The presented quotation is given according to the exchange contract in Brazilian Reais (R\$) carried out on the date of the resource's entry as per the value anticipated in the contract in US dollars (USD).

Fundo Brasileiro para Biodiversidade - FUNBIO

Notes to financial information on Project CITinova II (Continued)

Period from January 1 to December 31, 2023

(In thousands of reais, unless otherwise stated)

5. Funds executed

The execution of the resources of the Project CITinova II, which occurred in the period from January 1 to December 31, 2023, is presented below:

Budget Component (*)	Values in USD	Quotation (**)	Values in R\$
10 NATIONAL PROJECT COMPONENT	(7)	4.81	(34)
1601 - Staff Travel & Transport	(7)	4.81	(34)
30 TRAINING COMPONENT	(29)	4.81	(137)
3201 – Training	(29)	4.81	(137)
Total of funds executed	(36)	4.81	(171)

(*) The information disposed above is presented according to the Components and Categories planned in the ANUBIS System used by UNEP.

(**) The quoted amount is the average of the donor's contributions. Values presented in dollars are approximations considering the rounding of the amount received in reais for presentation in thousands of dollars and reais.

Independent auditor's limited assurance report on compliance with the accounting and financial contractual provisions of Project CITInova II

The Executive Secretary and the Board of Directors
Fundo Brasileiro para a Biodiversidade - FUNBIO
Project CITInova II
Rio de Janeiro - RJ

We have audited the Financial Information of Project "Promotion of integrated metropolitan planning and investments in innovative urban technology in Brazil - CITInova II" ("Project" or "CITInova II"), managed by Fundo Brasileiro para a Biodiversidade – FUNBIO (the "Institution"), financed with funds from the Global Environment Facility (GEF) through the United Nations Environment Programme (UNEP), in the period from January 1 to December 31, 2023, and issued a report thereon, dated May 29, 2024.

Our purpose of our audit was to verify the proper compliance with contractual provisions directly related to accounting and financial matters of the Project CITInova II.

We conducted our audit in accordance with international auditing standards and the requirements of the agreement entered into between the Institution and the Global Environment Facility (GEF) through the United Nations Environment Programme (UNEP). These standards require the due planning and performance of the audit so that we can obtain reasonable assurance that FUNBIO has complied with the provisions of the agreement entered into between the Institution and the Global Environment Facility (GEF) through the United Nations Environment Programme (UNEP). The audit includes an examination, on a sampling basis, of the evidence we believe to be appropriate. Therefore, we consider that our audit provides a reasonable basis for our opinion.

In our opinion, from January 1 to December 31, 2023, FUNBIO complied, in all substantial aspects, with the applicable contractual provisions, of an accounting and financial nature, of the agreement entered into between the Institution and the Global Environment Facility (GEF) through the United Nations Environment Programme (UNEP).

Rio de Janeiro, May 29, 2024.

Independent Auditors' Assurance Report on the description, design and effectiveness of operational controls applied in Project CITinova II

The Executive Secretary and the Board of Directors
Fundo Brasileiro para a Biodiversidade - FUNBIO
Project "CITinova II"
Rio de Janeiro - RJ

This report supplements our report on the financial information of Project "Promotion of integrated metropolitan planning and investments in innovative urban technology in Brazil - CITinova II" ("Project" or "CITinova II").

Management of Fundo Brasileiro para Diversidade - FUNBIO, manager of Project CITinova II, is responsible for maintaining an internal control structure sufficient to mitigate the risks of material misstatement of the financial information and protecting the assets under the Project's custody, including the constructed works and other acquired items. In order to fulfill this responsibility, management is required to make judgments and estimates to assess the expected benefits and costs related to the policies and procedures of the internal control system. The objectives of an internal control system are to provide management with reasonable, but not absolute, assurance that assets are protected against losses arising from unauthorized use or disposals, that transactions are carried out in accordance with management's authorizations and agreement terms and that they are properly recorded to allow the preparation of reliable accounting information. Given the inherent limitations of any internal control system, errors or irregularities may occur and not be detected. In addition, the projections of any assessment of the structure of future periods are subject to the risk that the procedures could prove inadequate due to changes in conditions, or that the effectiveness of the design and operation of the policies and procedures could deteriorate.

In planning and carrying out our audit of the Project's financial information for the period from January 1 to December 31, 2023, we obtained an understanding of the internal control structure and assessed the control risk to design audit procedures for the purpose of expressing an opinion on the Project's financial information, and not on the effectiveness of the internal control structure.

Our audit of the Project CITinova II for the period from January 1 to December 31, 2023 did not reveal any significant deficiencies in the design or operation of internal controls that could, in our opinion, significantly affect FUNBIO's ability to record, process, summarize and present financial information consistent with management's assertions in the statements of funds received and disbursements made, as well as of accumulated investments.

A significant deficiency is the condition in which the design or operation of one or more elements of the internal control structure does not reduce to a relatively low level the risk that errors or irregularities may occur in amounts that could be significant in relation to the financial information of the Project, and that could not be detected on a timely basis by FUNBIO employees in the normal course of the duties assigned thereto.

Our consideration of the internal control structure does not necessarily expose all matters of that system that could be considered significant deficiencies and, therefore, should not necessarily expose all conditions to be reported that could be considered significant deficiencies, according to the definition above.

Rio de Janeiro, May 29, 2024.
